Dear Ms. Miller,

Per your request, please find attached additional information regarding my 2009 Financial Disclosure Statement. In your conversation with my Chief of Staff, Meg Joseph, you indicated that you would like additional information regarding my wife, Lynn Bright's Morgan Stanley IRA Account which appeared on my 2008 statement but was missing from my 2009 statement. Please be assured this was an oversight and the account details are included with this correspondence. If you have additional questions, please let me know.

Sincerely,

### Common stocks & options

Citi Investment Research & Analysis (CIRA), Morgan Stanley & Co. Incorporated (Morgan Stanley) and Standard & Poor's research ratings may be shown for certain securities. All research ratings represent the "opinions" of the research provider and are not representations or guarantees of performance. Because the research report contains more complete information regarding the analyst's opinions, analysis, and rating, you should read the entire research report and not infer its contents from the rating. Where a particular company is covered by both CIRA and Morgan Stanley, you can and should view both research reports. CIRA and Morgan Stanley research reports may contain different or conflicting information about the subject companies of such research reports because they are prepared separately from each other. CIRA stock recommendations include an investment rating and a risk rating. The Investment Rating Code (1, 2 or 3) is a function of CIRA's expectation of total return (forecast price appreciation and dividend yield within the next twelve months) and a Risk Rating. The Risk Rating (L, M, H or S) represents Morgan Stanley's research ratings have been normalized by these providers to a 1 (Buy), 2 (Hold), and 3 (Sell). Morgan Stanley Smith Barney is not the author of, does not take responsibility for, and does not guarantee the accuracy, completeness, or timeliness of research prepared by Standard & Poor's.

### Morgan Stanley Stock Ratings

Morgan Stanley's ratings system differs from the CIRA rating system. Morgan Stanley does not assign ratings of Buy, Hold or Sell to the stocks they cover. Their ratings, Overweight, Equal-weight, Not-Rated and Underweight, are not the equivalent of Buy, Hold, and Sell, but represent recommended relative weightings. To satisfy regulatory requirements, Morgan Stanley corresponds Overweight, their most positive stock rating, with a Buy (1) recommendation, they correspond Equal-weight and Not-Rated to Hold (2) and Underweight to Sell (3) recommendations, respectively. These corresponding ratings are displayed on account statements. Morgan Stanley's own proprietary ratings, shown below, are displayed on Morgan Stanley research reports:

Code	Rating	Definition
O	Overweight	The stock's total return is expected to exceed the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.
E	Equal-weight	The stock's total return is expected to be in line with the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.
NR	Not-Rated	Currently the analyst does not have adequate conviction about the stock's total return relative to the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.
U	Underweight	The stock's total return is expected to be below the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.

NAV, NA or \*\* appearing for Morgan Stanley Research indicates that the ratings for this company are not available because of a Morgan Stanley policy.
